Now I want to complete a lesson with my class. What do I do next?

The Volumes represent the Grades in your school. We have grouped the lessons into Volumes so that you can offer remedial help to learners by going down a Volume as well as extension to learners by going up a Volume.

To start a lesson, follow these steps:

STEP 1 - Select your relevant grade.

STEP 2 - Select the lesson you want to complete by clicking on it

As we follow an integrated approach to teaching ICT, you will try and complete lessons and themes that the class teachers have been teaching in their classrooms. This means that you might start with lesson 1. 3 and then do lesson 1.8 the next week – you do not start at 1.1 etc.

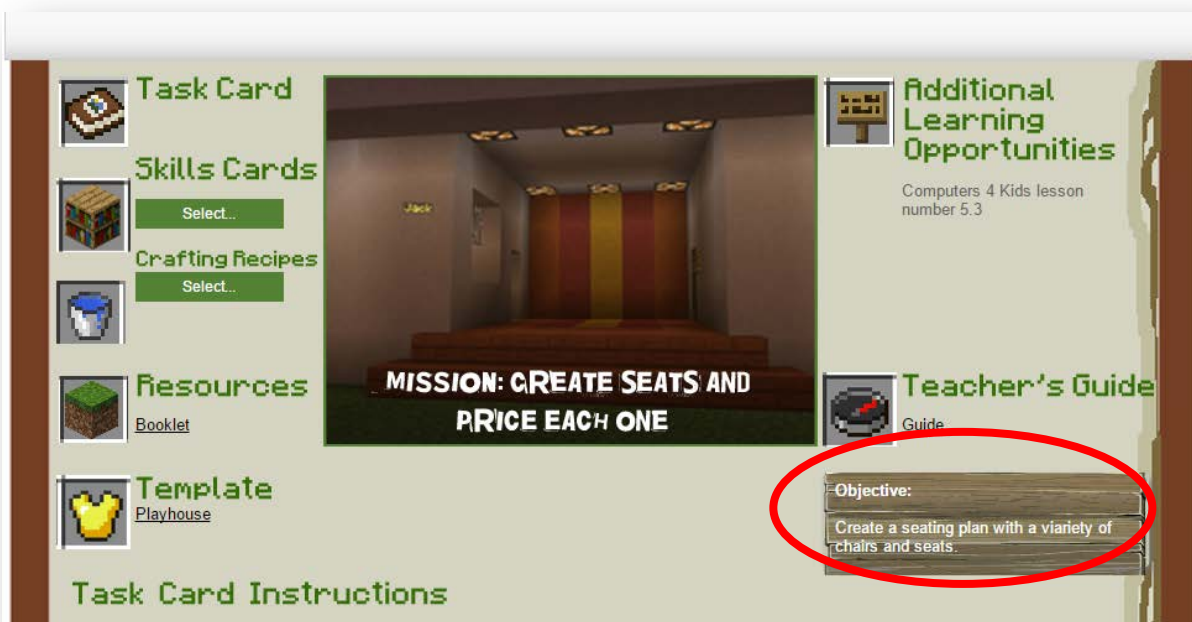

Computers 4 Kids **e-Learner**

VOLUME 5

 <p>5.1 Medieval Coat of Arms</p> <p>Know what a coat of arms was and why they were used in medieval times.</p>	 <p>5.2 Seats for Sale</p> <p>Create a seating plan with a variety of chairs and seats.</p>	 <p>5.3 Building Budget</p> <p>Learners must build a house using a budget.</p>	 <p>5.4 Dam Builders</p> <p>Learners must build their own dam.</p>
 <p>5.5 Celebrations</p> <p>Create a town festival in your village.</p>	 <p>5.6 Globe Trotters</p> <p>Learners build a famous structure from around the world.</p>	 <p>5.7 Archery Add</p> <p>Learners have a archery competition.</p>	 <p>5.8 Crossing Borders</p> <p>Learners must separate into two teams and negotiate separating the template world village into two.</p>

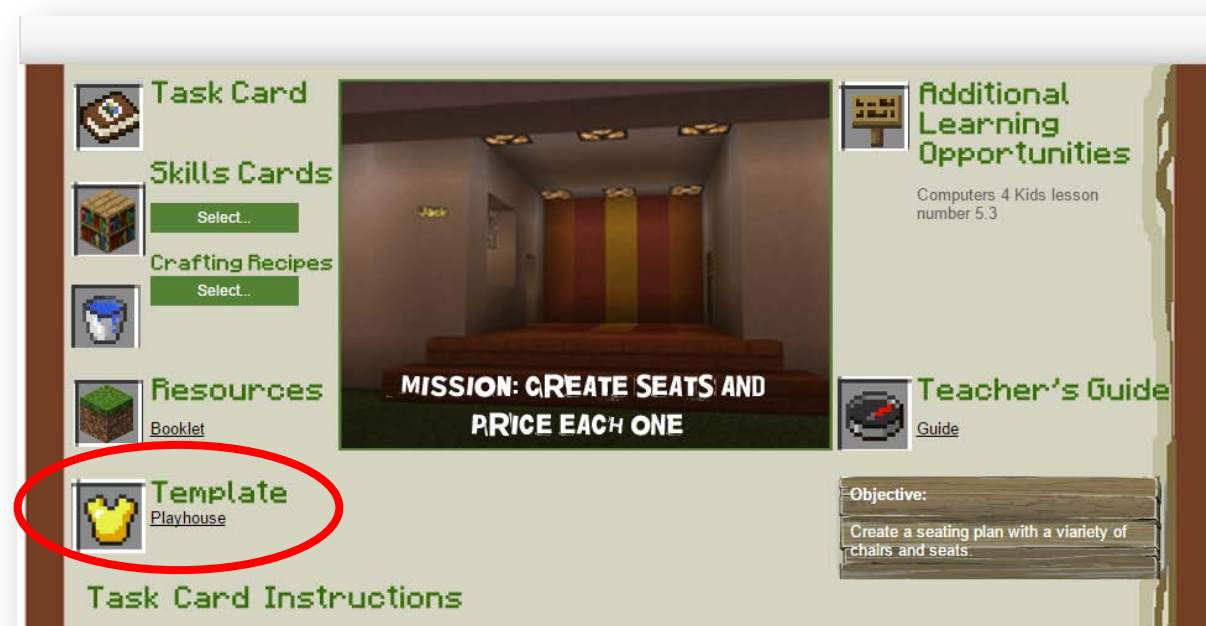

STEP 3 – Objective

This signboard shows the objective/outcome to the lesson.

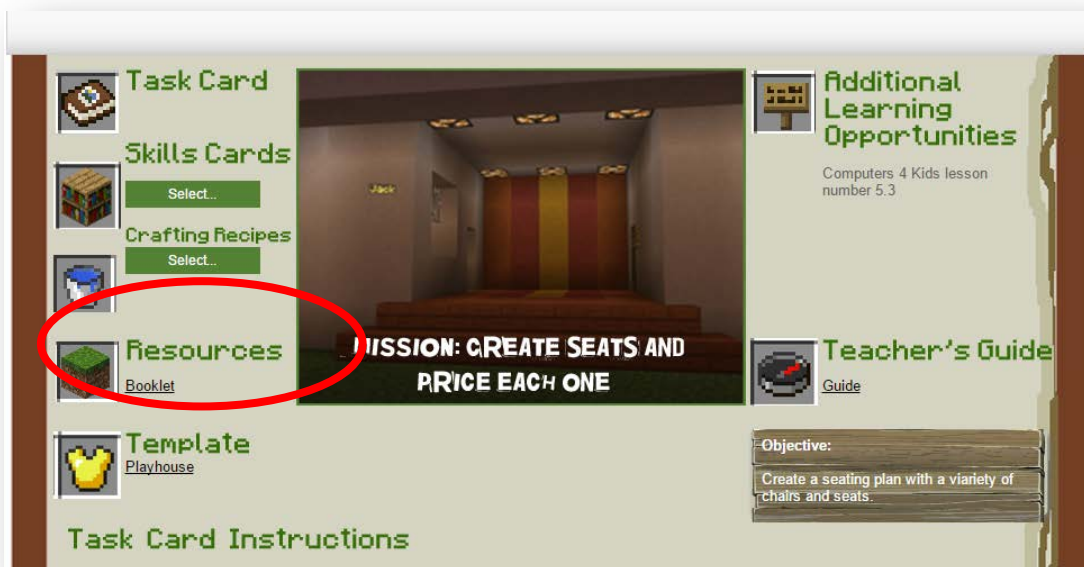

STEP 4 – Template Linx

Most of our Minecraft lessons will have an already made-up “world” (template) for the learners to use. If there is no link here it means that the learners are creating the “world” from scratch and you will need to read the step-by-step instructions on how to complete the lesson.

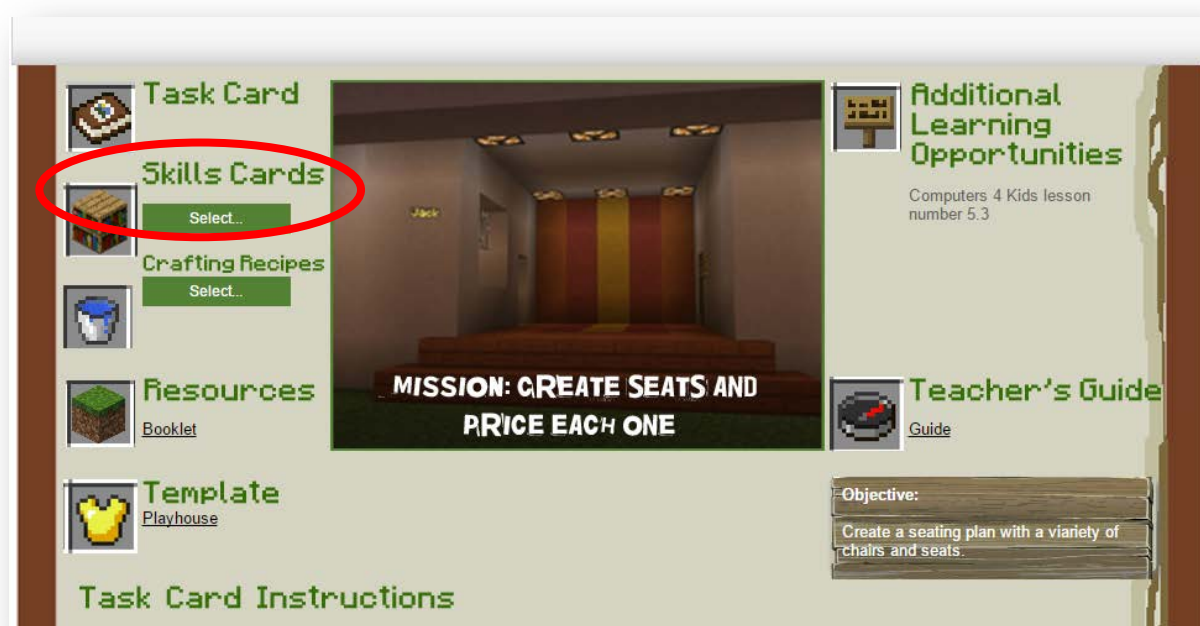

STEP 5 – Resource Link:

This is the lesson instruction booklet giving you step-by-step instructions on how to complete the lesson.

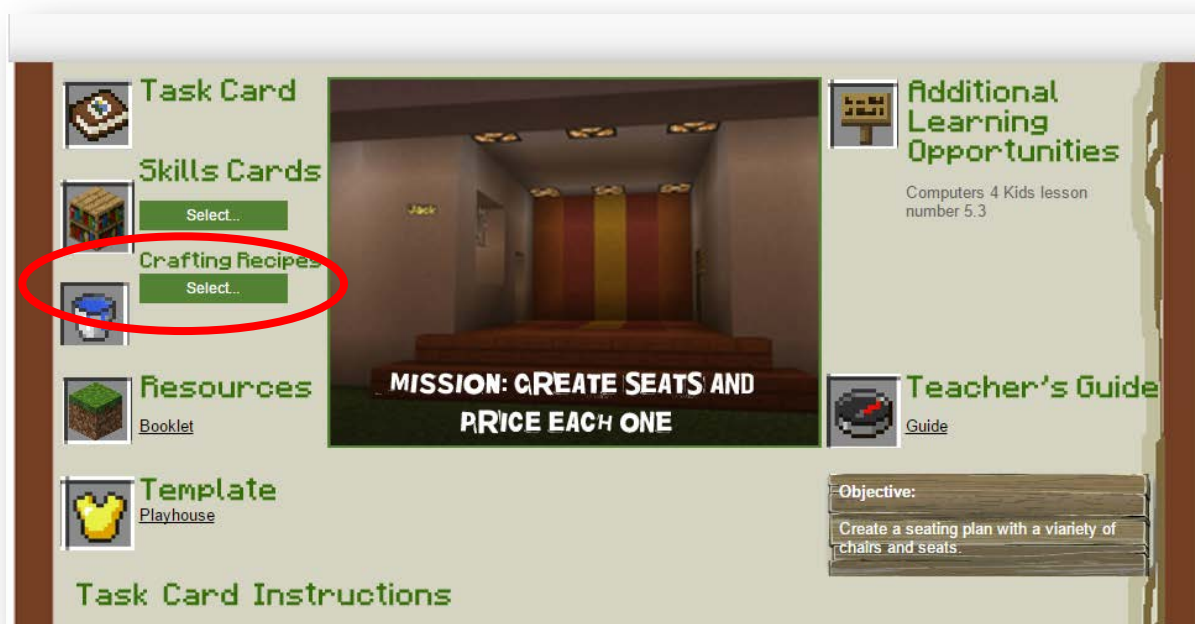

STEP 6: Skills Cards

In the lesson booklets, you will be asked to refer to Skills Cards. Skills Cards explain how to perform certain actions in Minecraft. These are found here:

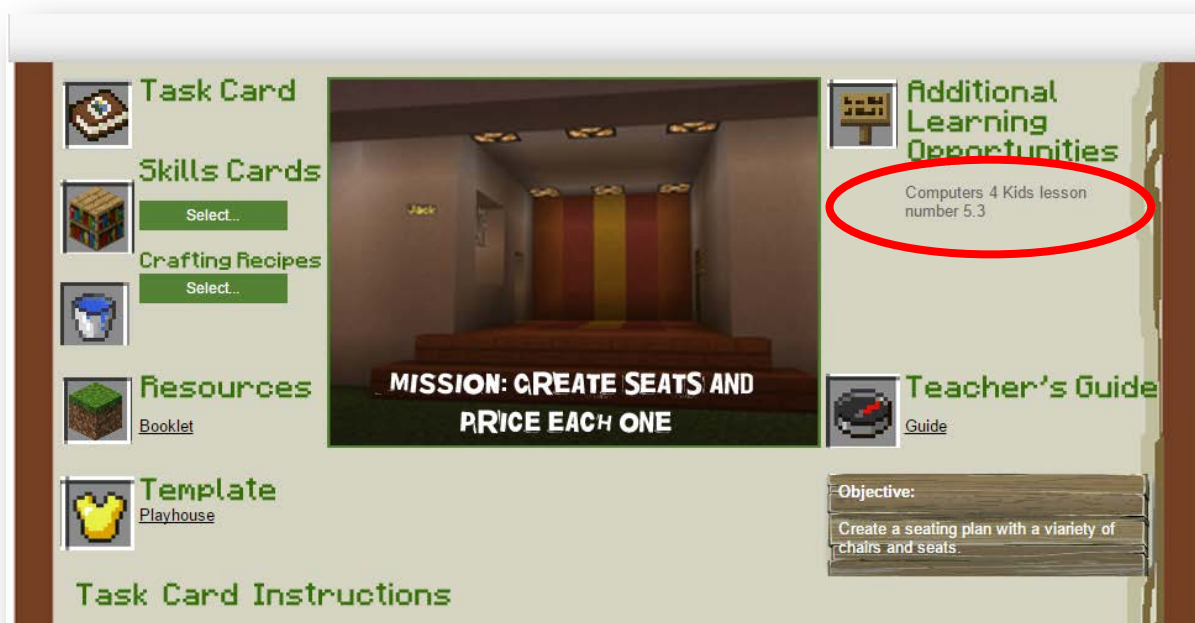

STEP 7 – Crafting Recipes

These Recipe Cards are there to help the learner with crafting items in Minecraft. Crafting is when you make tools out of things you have mined ie: iron.

STEP 8 – Additional Learning Opportunities

This allows you to see the lesson link between Minecraft: Education Edition and our Computers 4 Kids Primary School Curriculum.

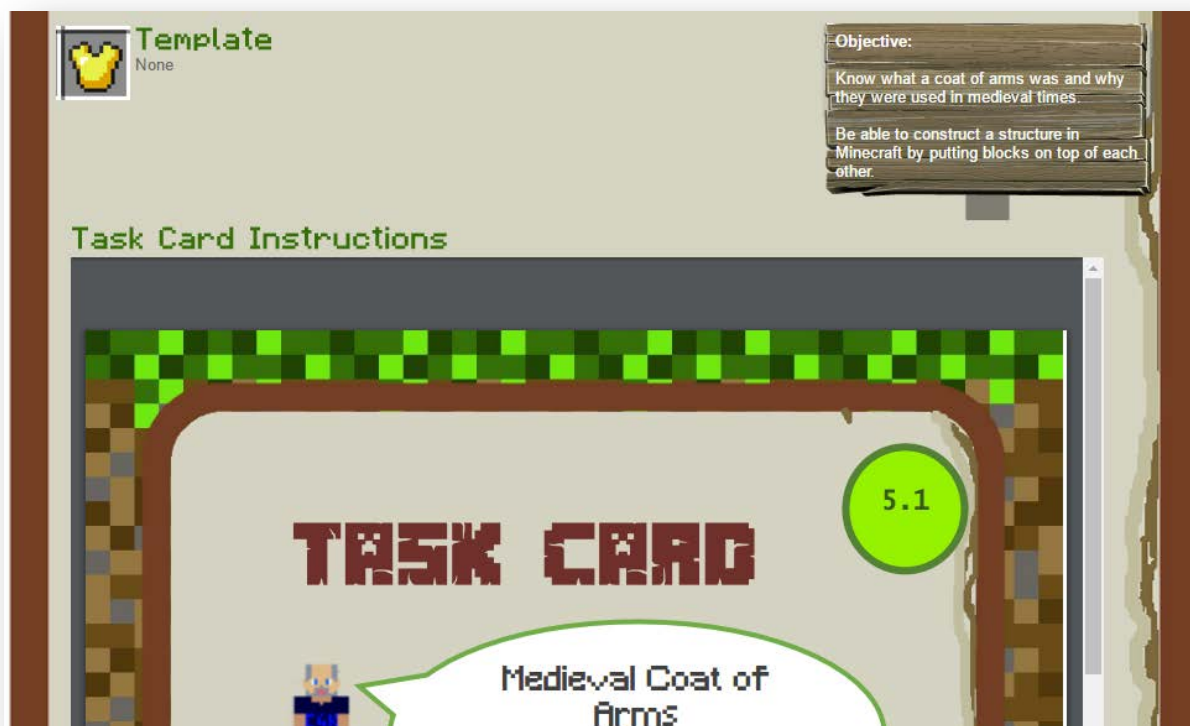

STEP 9 – Teacher’s Guide

This is a comprehensive teacher’s guide to the Computers 4 Kids Minecraft: Education Edition lessons.

STEP 10 – Task Card Instructions

The task card provides simple step-by-step instructions on how to complete the lesson.

STEP 11 – Additional Resources

Looking for more on Minecraft: Education Edition and/or coding in the classroom? Take a look at these two links below for more resources.

The banner features a green and brown pixelated background. In the top left is a logo for '4 computers Kids' with a large blue '4'. In the top right is an 'e-Learner' logo with a hand cursor icon. Below the title 'MINECRAFT VOLUMES' are four circular icons: Steve, a grass block, a character, and a white bear. Below each icon is a label: 'VOLUME 4', 'VOLUME 5', 'VOLUME 6', and 'VOLUME 7'.
